

Lanco MG Club "Tech Squad"

The Lanco MG Club will soon have a "tech squad". This will be comprised of several of our members with personal experience in maintaining and improving our cars. A mission statement will define what the "squad" will (and will not) offer. (I.E. - they won't come to you and work on your car. They will offer some suggestions for you to try to rectify your defined problem. They will recommend service or parts supplier organizations that we as a club are known to provide quality service, etc.).

Look for more information to be provided on this soon.
